

March 2006 Planning Section, Tama City

Outline version

The Fourth Tama City Comprehensive Plan: Last Part of Basic Plan

THE ROADMAP TO 2010

TAMA CITY STRATEGIC PLAN

Terms of Plan: Fiscal Year 2006 to 2010

March-06

Tama City

The “Tama City Strategic Plan: Roadmap to 2010” which shows the vision for city planning until 2010 has been drawn up.

In this plan, three big prioritized city planning until 2010 were specified.

There were eight main targets set as objectives in achieving these three city planning. Moreover, specific targets were set to accomplish these main targets.

It is significant that the city administration together with the Tama City residents should proceed with the city planning for the achievement of these targets.

Everybody is requested to take part in city planning by all means.

The city where we want to continue living all our lives...

Clarify the role of citizens and administration such as the “tasks administration should undertake”, “tasks citizens and administration should undertake together” and “tasks fellow citizens themselves should undertake” to proceed with city planning.

CITY PLANNING ①

“Everybody can live just like oneself, learn, grow and be independent.”

IMAGE OF THE CITY

- Everybody can feel the pleasure of bringing up children, and those children can also live at ease.
- Everybody can demonstrate the abilities they have, can take part in the society regardless of age, with or without disability and can spend one’s life lively like oneself, learn and grow.
- Every citizen can live happily based on individual’s situation with healthy body and mind in a well-equipped environment.

Main target A: Build a city where everybody can feel the pleasure of bringing up children and those children can live at ease.

Specific target ア: Deepen understanding on child care and provide a warm and considerate support.

Specific target イ: Increase the opportunities for children to become independent through various experiences and learning in the community.

Specific target ウ: Promote an education that draws up and advances the abilities of children.

Main target B: Build a city where everybody can discover and demonstrate their own abilities while learning from the community and society.

Specific target エ: Make an opportunity which everybody can display their abilities such as through work, role, etc.

Specific target オ: Increase the opportunity which everybody can participate in community activities such as long life learning and volunteering.

Main target C: Build a city where every citizen can spend a healthy life.

Specific target カ: Promote health care tailored to every citizen.

Specific target キ: Aim at the enhancement of medical care system.

CITY PLANNING ②

“Everybody supports each other and live at ease.”

IMAGE OF THE CITY

- Enrichment of a safe and peaceful city environment with city based, disaster prevention, crime prevention, and convenient traffic system.
- Everybody receives necessary supports and senior citizens, handicapped persons and foreigners can live at ease through mutual help and cooperation
- Local issues can be solved and everybody can live warmly and peacefully by helping and protecting each other through the network with various organizations.

Main target D: Build a safe and peaceful city.

Specific target ク: Promote a disaster resistant city planning

Specific target ケ: Promote a crime-free and secure city planning.

Specific target コ: Achieve a convenient traffic system.

Main target E: Build a city where senior citizens and handicapped persons can live peacefully in a community supporting each other.

Specific target サ: Form a community where every citizen help and support each other.

Specific target シ: Improve appropriate support for those in need of assistance.

Specific target ス: Achieve a barrier-free city.

Main target F: Build a city where everybody has close relationship supporting each other.

Specific target セ: Create a community that deals with the solution to livelihood issues.

Specific target ソ: Promote training of human resources and its system to boost the participation of the citizens.

Specific target タ: Promote cooperative networking among various human resources.

Specific target チ: Everybody shares the community information.

CITY PLANNING ③

“The City where vigor and tranquility harmonize”

IMAGE OF THE CITY

- The city that has complete city planning system where citizens and enterprises collaborate and has good living environment which citizens can live forever.
- The city has structures for exchanges (opportunity, space, human resource) and full of vitality where everybody can communicate transcending community and generation and businesses as well.
- A city where abundant nature and culture are valued with an environment to feel relax like one's hometown.

Main target G: Build an energetic city that can exchange transcending community and generation.

Specific target ツ: Create and diffuse the allurements of the city.

Specific target テ: Create a bustling space where people gather

Specific target ト: Restore the resources of an affluent city

Specific target ナ: Promote exchanges and relations between enterprises, universities, other local governments and people.

Main target H: Inherit abundant nature and culture

Specific target ニ: Maintain a rich environment for the future.

Specific target ノ: Switch to an eco-friendly environment life style

Specific target ネ: Value the history and culture of Tama.
