

# Strict Rule Enforcement from December, Reiwa 5 Obligatory Sorting-out of PET (Plastic) bottles

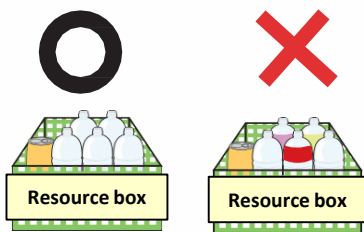

In Tama City, your cooperation to remove labels and caps of PET bottles before putting out for garbage collection has been asked.

From December of Reiwa 5, the rule of “all-time thorough sorting” shall be strictly enforced, in order to improve recycling quality.

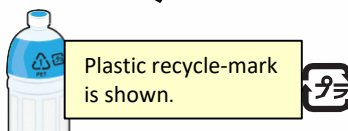

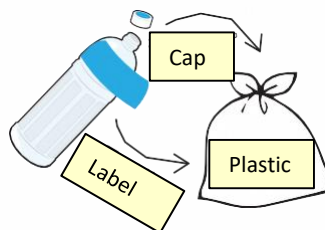

**If not-sorted-out PET bottle(s) is/are mixed, all garbage (including cans) in that container or bin shall not be collected at all.**

Your understanding and cooperation shall be appreciated.

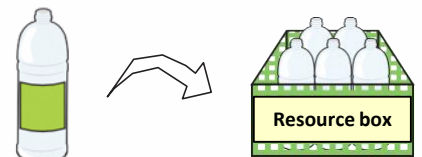

In case not-sorted-out PET bottle is mixed, the collection won't be provided.

Please put cap and label into designated paid plastic garbage bag.

Pet bottle with wholly pasted label can be put out for collection without peeling off.

What cannot be cleaned even after thorough rinsing (Oil stain, etc.) is burnable garbage.
